

ST. Louis Ballooning Adventures

Hot air ballooning is a very weather sensitive sport. St. Louis Ballooning Adventures and its pilots have a 100% perfect safety record. For safety reasons there are weather limitations in which we fly and anything beyond these limits will cause a cancelation and reschedule of your flight. Although it may appear to be a nice day to you to go flying doesn't mean it is. There are many weather conditions, which may cancel your flight. Please let us make this decision, after all we are the experts and certified FAA licensed pilots.

In the event of a canceled flight please reschedule your flight as soon as possible. We will notify you of a cancelation as soon as possible. On some rare occasions we may cancel the flight on the launch field if changing weather conditions occurs.

Should it become necessary that you need to change your flight date, your request must be received at least 24 hours in advance of the original flight date via phone call. If less than 24 hours notice or a no show on your scheduled flight date your flight will be considered flown.

Ballooning is very weather sensitive and since neither of us can control the weather and because the time and costs involved even for a canceled flight, your certificate is NON- REFUNDABLE. Flight certificates are valid for 1 year from date of purchase. Once purchased, there are absolutely no refunds, no exceptions.

You may transfer your certificate at anytime before the expiration date. You must do so in writing with your name, phone number and certificate number along with the name and phone number of the person the certificate is being transferred to. The expiration date will not change. The recipient of the transferred certificate must sign a new terms and conditions form.

Although your pilot has nearly 1000 hours as a pilot with a perfect safety record an assumption of risk and release of liability form must be signed by all passengers prior to your flight.

I have read, completely understand without question and agree to the terms and conditions above. I understand completely that there are absolutely no refunds once a certificate is purchased.
